Jackson County four year high school at Gainesboro has been badly handicapped in the past, on account of not having laboratories to do the work required in the Agricultural, Biology and Chemistry departments. We understand steps are being taken to remove this obstruction. Sufficient equipment is to be bought at once for these departments, and our high school pupils will then be given all the work required by the State Board, and our school will be placed on an equal footing with any A grade four year high school in the state. Heretofore, our sister counties, Smith, Putnam, White, Overton, have had the advantage of us. Now the Jackson County boys and girls can finish at home with the same number of credits they would get elsewhere.

Prof. H. J. Cox, principle and Miss Estelle Gailbreath, County Superintendent are entitled to a great deal of credit for this as they have been working steadily to build up the grades ever since they have been elected to their positions, and they, as well as every boy and girl in the county are to be congratulated on the result.

The Draper & McCawley Garage and the Jackson County Sentinel have launched a popularity contest, and are going to give away a brand new Ford touring car to the most popular man or woman, boy or girl, in Jackson County. You no doubt read the rules governing the contest in last week's paper, and know what to do to enter a friend, or become a contestant yourself. Get busy now and start the ball to rolling. The prize is well working for, so go after it. Each contestant will be given 1000 votes to start with. Who will be the first. If you want to enter send your name to the Sentinel, or Draper & McCawley Garage, Gainesboro. There is no strings to the proposition, only as stated in the ad on page 3. Remember the sooner you enter the better chance you have of winning.

Radio Outfit Enstalled.

The radio outfit, purchased by local citizens several days ago, arrived in Gainesboro late Monday afternoon and has been enstalled in the Tardy Hotel. The machine is a Westinghouse and is one of the best on market. A number of concerts, piano solos, vocal solos, speeches, ball game reports and other interesting features have been received nightly from Louisville, Kansas City, Detroit, Atlanta and other places, since the machine has been enstalled.

All were considerable shaken up, but no one was injured. A defect in the rail is supposed to have caused the engine to leave the track and plunge into the bank on the side of the track.

Bible Thoughts for the Week

AN UNLIMITED SUPPLY:—If ye abide in me, and my words abide in you, ye shall ask what ye will, and it shall be done unto you.—John 15: 7.

A LOVE FEAST:—Better is a dinner of herbs where love is, than a stalled ox and hatred therewith.—Proverbs 15: 17.

PEACE WITH ALL MEN:—Follow peace with all men, and holliness, without which no man shall see the Lord.—Hebrews 12: 14.

LIVE RIGHT TO-DAY:—Boast not thyself of tomorrow; for thou knowest not what a day may bring forth.—Proverbs 27: 14.

PRAISE THE GOOD GOD:—Make a joyful noise unto the Lord. Enter into his gates with thanksgiving. For the Lord is good.—Psalm 100: 1, 4, 5.

B. M. Haile Sustained Broken Arm In Runaway.

B. M. Haile, carrier of rural route 4, sustained a badly broken arm, and other minor bruises about the body, Saturday afternoon about 4 o'clock, when the horse he was driving ran away. The horse became frightened at an army truck on this side of the Brook's Ferry hill, about one half mile west of town and ran a distance of three hundred yards at full speed.

Mr. Haile was thrown from the buggy, when the horse made the turn at the point where the road intersects the main Gainesboro and Flynn's Lick road in front of A. M. Holland's residence. Mr. Holland phoned the news to town and a number of citizens rushed to his assistance. After reaching his home in Gainesboro, an examination showed that both bones in the left arm were badly broken, and the end of the bones protruding.

Following the advice of his physician, Mr. and Mrs. Haile left at 12 o'clock Saturday night for Double Springs where they took the first train to Nashville.

The train on which Mr. and Mrs. Haile were riding, was wrecked about daylight Sunday morning, several hundred yards west of Hickman. No one was hurt. An automobile was procured at Gordonsville for Mr. and Mrs. Haile and they were hurried on to the city, where Mr. Haile was placed under the care of physicians.

Mr. Haile stood the trip well, and the injured arm will be operated on today (Thursday.)

Flynn's Lick Forfeits Game.

On last Saturday afternoon the local Diamond Veterans met and defeated the Flynn's Lick baseball squad.

The Flynn's Lick boys forfeited the game in the first part of the seventh inning, when they had a dispute with the umpire and declined to finish the game, which was to be 7 innings, owing to the late hour at which the game was called. At the beginning of the first half of the seventh the score was 7 to 3 in favor of Flynn's Lick. By hard hitting and excellent base-stealing, the local chaps nosed the score from 3 to 7 to 4 to 7, then Mark Tardy took his stand at the bat with one out and Young on third. Tardy responded to our urgent request with a home run. Potete singled to left field then Roberts singled, and advanced Potete to third, Draper was caught out and an error was made by trying to make a double play; Potete stole home and overlooked 3rd sack, which the umpire didn't see, and the dispute arose.

We will endeavor to play two games a week, one being on the local field. Everybody come out and help us win.

Mr. F. A. Gurley,

The Goodyear Tire & Rubber Company Inc.
Knoxville, Tenn.

Dear Sir:

The editor of a trade paper wanted to write an article about conditions in the tire business, and particularly about the Goodyear Cross-Rib line of tires. So he went out on Broadway to interview some dealers. The dealers he called upon were one who handled one or more "long discount" lines and naturally they were disturbed by the appearance of the Cross-Rib in their field. How were they going to fool the buyer any longer with the "discount off" lure when he could get a Goodyear tire at as low or a lower price than the "discount off" resulted in. Of course they told the editor that the Goodyear move was a bad one.

It would ruin Goodyear reputation and business. They said little about how the Goodyear Cross-Rib line was going to affect the sale of their long discount tires.

Altruistically these dealers who were selling competitive makes were only concerned about how Goodyear was going to be harmed.

So the editor got the idea that dealers in general were not favorable to the Goodyear Cross-Rib and he passed the idea along.

In the past there have been quite a few Goodyear Service Stations who handled a long discount line to reach the price market.

A competitor's salesman called on one of these with the question, "How do you like the introduction of the Goodyear Cross-Rib line?"

Now this dealer had a big stock of long discount tires and he did not want anything to interfere with his getting his money out of them.

At the moment he was not sure what effect the Cross-Rib line would have on his ability to do this.

So he expressed himself as being unfavorable to the Goodyear move.

And the competitor's salesman immediately started telling dealers in general that Goodyear dealers were opposed to the Goodyear Cross-Rib line.

And of course, the competitor's salesman was only concerned about how the Goodyear business was going to be affected.

Did you ever see so many people worrying about Goodyear's future as there have been in the last few weeks?

Now it is very fortunate that we can have all of our competitors and competitive dealers doing the worrying for us for if we do what we ought to do in establishing this tire we will have no time to worry.

First of all there is nothing for us to worry about because we know what our competitors refuse to believe — that the Goodyear Cross-Rib Tire is a mighty good tire.

I saw one on one of our test cars recently that had gone 28,000 miles and was still in good shape.

Mr. Stadlerman saw three the other day taken off Ford trucks at 17,000 and 18,000 miles. This line was proven before it was offered for sale.

All we hope is that our competitors continue to worry about us for about a year so as to give us an opportunity to line up the intelligent, and aggressive merchants who are keen enough to see the value of the Goodyear franchise which includes the All-Weather, the Cross-Rib and the Pathfinder.

And where our salesmen are thinking right, talking right and working right we are lining up the real dealers.

These dealers see the advantage in being able to reach all price markets with the product of one manufacturer.

They know that the franchise on this complete line is more valuable than one which is incomplete.

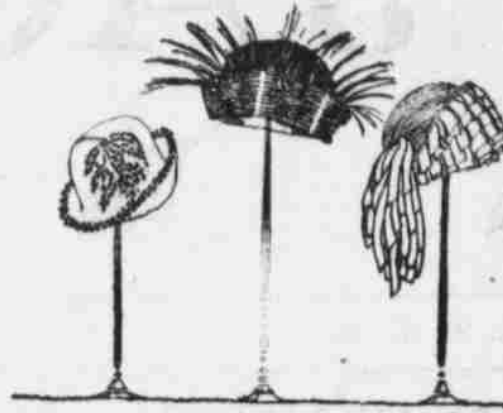

Would the Packard franchise be as valuable without the Single Six?

Would the Buick franchise be as valuable the four cylinder models?

Let the other fellow do the worrying. You take a hitch in your belt and realize that the present Goodyear franchise ought to appeal to the best dealers everywhere. Then go out and get them.

Yours very truly,

L. C. Rockhill, Sales Mgr.
